

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Index

THE RUMFORD PRESS CONCORD, NEW HAMPSHIRE

An Imprint that Travels Around the World Every Month in the Year

This is not an advertisement. It is a commemoration. It is also an appreciation of a group of important patrons, one of whom is the American Academy of Political and Social Science, whose monthly periodical, *The Annals*, is made by The Rumford Press.

Entire plant of The Press has just been installed in the new building illustrated above. It is a completely fireproof structure of cement and steel, four stories in height, 80 by 180 feet, equipped with every possible improvement that skill and experience can suggest for convenience in electrotyping, printing and binding.

In 1909 the total value of products of the Press was \$67,000. In 1920, \$988,000. In 1909 the payroll of the Press was \$850 per week. In 1921 it averaged over \$11,000 per week.

Within the brief space of twelve years The Rumford Press has become a leader in the production of magazines of national reputation. The imprint of The Rumford Press is now an evidence of class and stability. It is becoming a publishers' asset.

In addition to its select and remarkable company of magazines, the Press produces a large

number of pamphlets and books, numbering among its customers a dozen great universities, colleges and institutions and also many important interests.

In twelve crowded years The Rumford Press has made the capital city of New Hampshire an important publishing center and has effected a noteworthy advancement for the printing industry in New England.

The remarkable record here suggested is the result of utilizing skilled American labor to secure the finest product, of annihilating distance by intelligent and painstaking observance of promises, by patient consideration of the wishes of customers and by furnishing the best city product at reasonable prices and without city disadvantages.

If you desire to publish a magazine, or pamphlets, or cloth-bound books, you may share in these advantages by communicating with the Press, but you will be told frankly if your requirement cannot be produced to mutual advantage, or if prior engagements make it impossible to complete your work promptly and exactly as you desire.

THE AMERICAN ACADEMY OF POLITICAL AND SOCIAL SCIENCE

Origin and Purpose. The Academy was organized December 14, 1889, to provide a national forum for the discussion of political and social questions. The Academy does not take sides upon controversial questions, but seeks to secure and present reliable information to assist the public in forming an intelligent and accurate opinion.

Publications. The Academy publishes annually six issues of THE ANNALS dealing with the most prominent current social and political problems. Each publication contains from twenty to twenty-five papers upon the same general subject. The larger number of papers published are solicited by the Academy; they are serious discussions, not doctrinaire expressions of opinion.

Meetings. The Academy holds scientific sessions each year during the winter months, and it also has an annual meeting extending over two full days and including six sessions. The papers of permanent value presented at the meetings are included in the Academy publications.

Membership. The subscription price of THE ANNALS of the American Academy of Political and Social Science is \$5.00 per year. Single copies are sold at \$1.00 each. THE ANNALS are sent to all members of the Academy, \$4.00 (or more) of the annual membership fee of \$5.00 being for a subscription to the publications. The annual membership fee is \$5.00; life membership fee, \$100. Members not only receive all of the regular publications of the Academy, but are also invited to attend and take part in the scientific meetings, and have the privilege of applying to the Editorial Council for information upon current political and social questions.
